

I TAKE FLIGHT

Light as a feather
in the moon`s silver light
I spread my wings and
I take flight
I take flight,
take flight in the silver light

into the evening sky
blue moon light

I fly I fly I fly I fly so high

My footprints are gone
a wind took them home
and I take flight
In the silver light
Into the evening sky

I fly I fly I fly I fly so high

Freedom does no longer hurt
And peace is more than a word
When I fly so high

In the silver light
Into a blue moons night

I fly I fly I fly I fly into the sky
