

Out of the dark

Call my name - call me again

Out of the dark into the light, into the light

A millions of stars sparkling in the desert night

Their ancient light shines so bright

A millions of eyes watching my soul

A millions of voices calling me home

They call my name - they call me again

Out of the dark into the light, into the light

Time has no reason no more

It falls away as is opened that door

I follow the light I follow ... I go

You called my name - you called me again

Out of the dark, out of the night, into the light,

I follow the light... (I Go)
